PRIMARY EXAMINER

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Marcus Simon on June 30, 2006.

The application has been amended as follows:

Page 18, line 16 the following sentence has been added after the period: -- As best shown in Figure 3 with reference to the socket 302a, the receiving chambers 790a are accessible through the top and bottom of the socket 302a when the plug 310 (not shown) and silo 360 (not shown) are not inserted into the socket 302a. --.

Claim 1, line 1, "multi-contact" has been changed to – socket --; line 2, -- having at least one electrical contact – has been inserted after "silo"; last line, -- , wherein the at least one elongated pawl receiving recess is not accessible through the bottom when the socket silo is inserted through the bottom" has been inserted before the period.

The following is an examiner's statement of reasons for allowance: the above change to claim 1, line 1 has been made to correct an informality; the remaining claim changes have been made to define over the applied prior art. The addition to page 18 has been made to overcome the 35 U.S.C. 112 rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
